Re-Evaluation Request
Ms. Porter’s Class, St. Rose Junior High

Student’s Name, Subject & Class: _______________________________________________________

In the case of a student requesting a chance to improve their grade after a test/quiz or project, the student and family will be required to fill out this form and follow through with the instructions listed.

➢ Students are required to create their own extra project which reflects the content and Key Learner Outcomes (KLOs) that they were originally graded on. They are welcome to choose a variety of methods to demonstrate their understanding of the content and KLOs (posters, videos, PowerPoints, written reports, etc.).
➢ Students must justify why they deserve a re-evaluation opportunity by demonstrating they have analyzed their original assignment, and are aware what they need to do to further their understanding.
➢ Students will receive the grade which best represents their understanding. If they are able to demonstrate mastery of a KLO within a Re-Evaluation Project, they will receive a mastery grade.
➢ In order to receive a re-evaluation, students will be required to hand in their Re-Evaluation Project within 2 weeks after the original test/quiz or project’s due date.

Original Test/Project: __________________________________________________________ Original Grade received: _______

KLOs Addressed in Original Project: __________________________________________________________
___________________________________________
___________________________________________

What the student plans to do to improve their grade: __________________________________________
___________________________________________
___________________________________________

Re-Evaluation Project Due Date: ______________________________

What strategy will I use in the future to avoid another Re-Evaluation Request: __________________________
